

Conclusions

Elisa Villard, Jean-François Ribaud,
Stefan Kneifel, Bernhard Pospichal,
Ewan O'Connor, Martial Haeffelin,

CCRES/CLU Training school, Munich, 2-5 Sept. 2025

Agenda

1. Acknowledgments
2. Feedback on CCRES/CLU training school
3. Technical points
4. Workshop
5. Calendar

Acknowledgments

- A very **warm thank you to Stefan, the entire LMU team**, the university, for hosting the training school, support for preparation, making hands-on sessions possible, arranging and covering the coffee breaks
- **Thank you also to all trainers** for preparing and providing the lectures, hands-on sessions and all tools and materials
- Thank you to **all the trainees** for your active participation and feedback

Feedback on the CCRES/CLU training school

We will propose **a survey to collect your feedback** to improve future training

- **Feedback on the lectures:** length of presentation, clear / accessible to you, would you like more/less lectures (what topic?)
- **Feedback on hands-on:** length of presentation, clear / accessible to you, would you like more/less hands-on (what topic?), enough practice during the session, feedback on jupyter notebooks

Follow-on trainings by CCRES/CLU:

- Would you be interested in future training sessions to revisit some topics? If so what topics? Online or in-person?
- Would focused mooc-type lectures be useful to you?
- Other suggestions?

Technical points

- All presentations will be sent next week and **available online** on ACTRIS CCRES website
- Feel free to send any question on the topics presented this week directly to the lecturers, or to Elisa who will redirect you
- If you are not in actris_crs mailing list (e.g information on the ACTRIS Week in Evora and CCRES/CLU workshop sent on Monday), let Elisa know so that she can add you
- Please **give your badge** back to us : you can leave it on the table at the front of the room
- We will share the pictures of the week with you, feel free to add the ones you took in the shared folder. If anyone doesn't want to appear in CCRES/CLU future communication (newsletter or ACTRIS website), please let Elisa know. The picture won't be used.

Next workshop

Next CCRES/CLU workshop will take place on **October 22 in Evora, Portugal** and **online**, as part of the ACTRIS Week 2025. More information on the event can be found on ACTRIS website : <https://actris.eu/news-events/events/actris-week-2025>

Registrations are open **until September 19th** on [ACTRIS website](#).

Focus of the workshop :

- A joint session with CARS, focusing mainly on ALC
- Latest news and updates from CCRES and CLU
- Sharing experiences between the National Facilities → we strongly encourage all the NFs to prepare a 10 minutes session (5' for the presentation and 5' for discussion), focusing on **specific issues encountered at their station** during the implementation of SOPs and calibration methods, or related to measurements or data processing.

Objective : to encourage NF engagement and sharing of experience among the community by sharing **the approach and method adopted to solve specific issues**, or to discuss ongoing issues that have not yet been resolved.

Calendar 2025-2026

2025

SEPT. • **EMS Annual Meeting 2025**, Ljubljana (Slovenia) - 7th to 12th of September

• **5th International Snowfall Workshop**, Reading (UK) - 15th to 17th of September

OCT. • **BASTA CCRES calibration campaign**, Granada (Spain) - October to December

• **ACTRIS Week 2025**, Evora (Portugal) - 20 to 24th of October

DEC. • **EarthCARE science and validation workshop**, Tokyo (Japan) - 1st to 5th of December

2026

JAN. • **BASTA CCRES calibration campaign**, Bucharest, Galati and Cluj (Romania) - January to July

APRIL • **ACTRIS Science Conference 2026**, Oslo (Norway) - 20 to 24th of April (abstract submissions opening in October 2025, <https://actris.eu/ASC2026>)

• **18th Specialist Meeting on Microwave Radiometry & Remote Sensing of the Environment**, L'Aquila (Italy) - 27th to 30th of April
